

Disobedient, Disruptive, Defiant, and Disturbed Students: Behavioral Interventions for Challenging Students

Albany, NY ♦ November 29 -30, 2010

Howard Knoff, Ph.D. is the Director of Project ACHIEVE, a comprehensive, evidence-based national school improvement program, and Director of the Arkansas Department of Education's State Improvement/Personnel Development Grant that is funding the statewide implementation of Project ACHIEVE. Dr. Knoff has authored or co-authored 16 books, published over 75 articles and book chapters, and delivered over 500 papers and workshops nationally. He has received over \$15 million in external grants during his career. Dr. Knoff was the 21st President of the National Association of School Psychologists.

This interactive presentation focuses on how to establish the effective school-wide Positive Behavioral Support (PBS)/Discipline, Behavior Management, School Safety systems (Tier 1) in all schools that increase students' prosocial skills, academic engagement, and academic achievement. Using this PBS foundation, Strategic (Tier 2) and Intensive (Tier 3) interventions to assist challenging students who are behaviorally unsuccessful or non-responsive then are described.

How to specifically plan, implement, and evaluate Tier 2 behavioral interventions are especially emphasized over the two-day session. They will be organized to address the need to: (a) Increase or Establish New Student Behaviors; (b) Decrease or Eliminate Inappropriate Student Behaviors; (c) Teach Attention and Engagement Skills; (d) Teach Social, Self-Management, and Self-Control Skills; (e) Increase Student Motivation; and (f) Address Teasing, Taunting, Bullying, Harassment, and Physical Aggression/Fighting. The specific interventions discussed will be evidence-based, teacher-friendly, and field-tested.

This workshop will provide case examples as appropriate. For each intervention, the following information will be provided: (a) Problem Situations where the Intervention is most-used or most useful; (b) functional assessment outcomes that necessarily link to make this intervention relevant; (c) the Age Levels where the Intervention will be most successful; and (d) the Severity Level of the Student and/or Problem where the Intervention will be most successful.
