

## **“ADHD, and Autism Spectrum Disorders”**

*Mundelein, IL ♦ October 1-2, 2009*

Crowne Plaza Chicago North Shore

**Thursday  
Oct 1**

### **ADHD: Living without Brakes, with Martin L. Kutscher, M.D.**

Current concepts of Attention Deficit Hyperactivity Disorder (ADHD) extend much further than the traditional triad of inattention, impulsivity, and hyperactivity. The course will cover the full range of symptoms experienced by people with ADHD and their families—including over-reactions, brakeless behaviors, easy frustration, disorganization, and “future blindness.” Special emphasis will be given to the concepts of executive function; and to co-morbidities such as autistic spectrum disorders, learning disabilities, anxieties, OCD, tics, depression, bipolar depression, sensory integration disorder, and central auditory processing. Dr. Kutscher empathically summarizes how to identify and differentiate these co-occurring issues. Behavioral therapy at home, organizational support at home and school, and medication treatments will be discussed.

**Friday  
Oct 2**

### **Building Social Relationships with ASDs, with Scott Bellini, Ph.D.**

This engaging workshop will provide an overview of a social skill instructional model developed by Dr. Bellini. The workshop will provide research on social-emotional functioning as well as practical and effective strategies for teaching social interaction skills to children and adolescents with Autism Spectrum Disorders (ASDs). The model provides a systematic and comprehensive framework to guide parents and practitioners in the development and implementation of effective social skills programming. Participants will increase their knowledge of social and emotional functioning, and the relationship between social skill deficits and social anxiety. They will also learn skills necessary to assess social functioning in individuals with ASDs.

#### **Schedule for Conference Days**

7:00-8:00am Check-in  
8:00-9:30am Speaker  
9:30-9:45am Break
