

Autism Spectrum Disorders: Social Skills & Curriculum

September 19 - 20, 2007

Pittsburgh, PA

Curricular Adaptations, presented by Patrick Schwarz, Ph.D.

Considering the specific learning and support needs for students with autism spectrum disorders (ASD) in the inclusive classroom, participants of this workshop will learn processes to adaptively personalize and improve the quality of educational settings. Included will be how to provide rationales for curricular adaptations, differentiated instruction and universal design in the general classroom, how to set up an IEP-at-a-glance tool for supporting students, how to orchestrate a planning process so student needs are creatively met in a quality fashion and ideas for differentiation and universal design.

Sept 19

Social Skills Training, presented by Jed Baker, Ph.D.

Specific, user-friendly strategies and techniques for providing relevant social skills instruction to children and teens with ASD will be shared at this workshop. Enjoyable socialization methods are emphasized so individuals may experience success and desire to build skills. Social deficits affect life at home, school and eventually in the workplace. Conference participants will learn both highly beneficial strategies that can be used across a variety of settings and routines; and practical and effective solutions to assist 'typical' peers, family members and professionals to become more understanding, accepting and engaging of those with social difficulties.

Sept 20

Conference Location:

Holiday Inn Pittsburgh-Central / Greentree
401 Holiday Drive
Pittsburgh, PA 15220
(412) 922-8100
